

Planning ahead

To help prevent unnecessary stress and treatment disruption, MyNovocure® is available to support you before and during your travel! In addition to the 24/7 technical support, we can provide helpful travel information.

Call MyNovocure in advance to prepare for travel

Please contact MyNovocure well in advance of your travel dates so we can help you prepare for your trip while using TTFields therapy. Depending on your specific plans, you may be eligible to borrow equipment.

| Destination | When to call |
|---------------------------------|---|
| Continental United States | No later than 1 week in advance |
| Alaska, Hawaii, and Puerto Rico | No later than 2 weeks in advance |
| International Travel | No later than 3 weeks in advance Travel support is not available in all international countries and it is dependent on the approval status of TTFields therapy in your destination country. Call MyNovocure for a complete list of countries where TTFields therapy is currently supported |

Travel support

Starting and using TTFields therapy

Planning a trip? If your doctor tells you that it is okay, travel may be possible while using TTFields therapy.

Planning checklist

Packing checklist

Travel checklist

Contact your doctor

- ☐ Discuss your plans with your doctor to ensure you are able to travel
- ☐ If your doctor approves your travel plans, ask for a letter of medical necessity that you can share with airport personnel. It's not mandatory, but it may help ease check-in and security procedures

Confirm the availability of MyNovocure® support (24/7 tech support)

- ☐ Email your travel dates, destination address, and alternate contact information to support@mynovocure.com
- ☐ Call MyNovocure to have a TSA letter sent to you by mail or email. The TSA letter will help make the security process easier
- ☐ Consult with your airline, cruise line, or train service to ensure your TTFields therapy carry-on items comply with their security regulations. Be sure to ask how many batteries you can bring on board
- ☐ Call the TSA Cares help line at **1-855-787-2227** (toll free) to ask about procedures
- ☐ If you are traveling domestically and are eligible to borrow equipment for your trip, contact your hotel regarding any handling fees. Novocure® is not responsible for hotel handling fees

What to pack

- ☐ All of the TTFields therapy equipment, including: device with fully charged battery, extra batteries, connection cable and box, and transducer arrays

NOTE: Batteries should be carried on and cannot be checked in luggage. Use the pelican case provided to you, as it can be used as carry-on luggage

- ☐ 1-2 sets of arrays in your carry-on bag (in addition to the arrays you are wearing or bringing to stay on treatment throughout the duration of your trip) in the event of climate changes or misplaced luggage
- ☐ 3-pronged extension cord for use in a hotel room or airport terminal
- ☐ Plastic bags for disposal of transducer arrays
- ☐ Electric shaver
- ☐ 4-inch x 4-inch sterile gauze
- ☐ Supplies needed for array changes
- ☐ Elastic tubular dressing
- ☐ Emergency phone numbers for physicians
- ☐ Insurance cards
- ☐ TSA letter

Planning for the airport

- ☐ Please allow additional time to proceed through airport security and to your departure gate. Request special assistance from your airline in getting to your gate if needed

At security screening

- ☐ When powered down completely, TTFields therapy equipment is safe for X-ray security scanning. Please follow TSA directions accordingly
- ☐ Inform TSA that you are wearing a medical device that contains metal
- ☐ Make sure a copy of your TSA letter is easily accessible

Prior to departing home

- ☐ If you borrowed equipment for your trip, please carefully follow the return shipment instructions that arrived with your equipment
- ☐ Please call UPS to arrange for the pickup of your equipment (completely packaged and labeled). It will be returned at our expense. You may also inquire at your hotel if inclusion in their routine UPS pickup is possible
- ☐ Call MyNovocure before departing home if you have any questions about the equipment return
